**INFORMATION CONCERNING SOLICITATION AND VOTING**

**General**

These proxy materials are provided in connection with the solicitation of proxies by Pericom Semiconductor Corporation (the “Company” or “Pericom”) on behalf of its Board of Directors for use at the Annual Meeting of Shareholders to be held on December 11, 2009 at 3:00 p.m., California time (the “Annual Meeting”), or at any adjournment or postponement thereof. The Annual Meeting will be held at the Company’s premises, 3545 North First Street, San Jose, California 95134.

These Proxy materials and the Company’s 2009 Annual Report are first being mailed to shareholders on or about October 30, 2009.

**Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on December 11, 2009.**

The proxy statement, form of proxy, and 2009 Annual Report to Shareholders are available electronically at <http://www.edocumentview.com/PSEM>. Directions to the meeting location at 3545 North First Street, San Jose, California, are set forth at [www.pericom.com](http://www.pericom.com) under the “Contact Us” link.

**Revocability of Proxies**

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is exercised by delivering to the Company (to the attention of Chi-Hung (John) Hui, Ph.D., Senior Vice President, Research and Development and Secretary) a written notice of revocation or a duly executed proxy bearing a later date or by attending the meeting and voting in person.

**Record Date, Share Ownership and Quorum**

Shareholders of record at the close of business on October 15, 2009 are entitled to vote at the Annual Meeting. At the record date 25,521,297 shares of the Company’s Common Stock, no par value (the “Common Stock”) were issued and outstanding. The presence of a majority of these shares of Common Stock will constitute a quorum for the transaction of business at the Annual Meeting.

**Voting and Solicitation**

Holders of Common Stock are entitled to one vote for each share held.

If your shares were registered as of the record date directly in your name with our transfer agent, you are considered the “record owner” of those shares, and the Company is sending the proxy materials and proxy card directly to you. As the record owner, you have the right to vote in person at the meeting. If you choose to do so, you can bring the enclosed proxy card or vote using the ballot provided at the meeting. Even if you plan to attend the Annual Meeting, we recommend that you vote your shares in advance, as described in the proxy card, so that your vote will be counted if you later decide not to attend the Annual Meeting.

Most shareholders of the Company hold their shares through a broker, bank or other nominee (that is, in “street name”) rather than directly in their personal names registered with the transfer agent. If you held your shares in street name as of the record date, you are a “beneficial holder,” and the proxy materials are being forwarded to you by your broker, bank or other nominee together with a voting instruction card. Because a beneficial holder is not the shareholder of record, you may not vote these shares in person at the

meeting unless you obtain a “legal proxy” from the broker, bank or other nominee that holds your shares, giving you the right to vote the shares at the meeting. Even if you plan to attend the Annual Meeting, we recommend that you vote your shares in advance, as described in the voting instruction form to be sent to you, so that your vote will be counted if you later decide not to attend the Annual Meeting.

The vote required to approve each proposal is as follows:

- Proposal 1: Directors are elected by a plurality of the votes present in person or represented by proxy and voting. Therefore, the seven (7) nominees for director receiving the highest number of affirmative votes will be elected (regardless of the votes cast as “withheld” or shares not voted). Only votes cast “FOR” a nominee will be counted. Unless indicated otherwise by your proxy card, your shares will be voted “FOR ALL” of the seven (7) nominees named in Proposal No. 1 in this Proxy Statement. Instructions on the accompanying proxy card to withhold authority to vote for one or more of the nominees will result in those nominees receiving fewer votes but will not count as a vote “AGAINST” the nominees. Abstentions and broker non-votes will also result in those nominees receiving fewer votes but will not count as a vote “AGAINST” the nominees.
- Proposals 2 and 3: To be approved, Proposal 2 (Approval of the Pericom Semiconductor Corporation 2010 Employee Stock Purchase Plan) and Proposal 3 (Ratification of Selection of Independent Registered Public Accounting Firm) each requires the affirmative “FOR” vote of a majority of those shares present (in person or represented by proxy) and voting. Under California law, to achieve approval for Proposals 2 and 3, the affirmative votes must also constitute at least a majority of the minimum number of shares required to establish a quorum.
- Under California law, abstentions and broker non-votes are not counted as shares present and voting on a particular proposal, and thus will not directly affect the voting outcome on any proposal. However, abstentions and/or broker non-votes could have the indirect effect of defeating Proposals 2 or 3 if the affirmative votes cast comprise a majority of the votes present and voting, but are less than a majority of the minimum number of shares required to establish a quorum.
- Also, under the current rules of the New York Stock Exchange, a broker or other nominee that is a member of the exchange is prohibited from voting on Proposal 2 unless the broker or other nominee receives specific voting instructions from the beneficial holder of the shares. Brokers are permitted to vote on routine matters, such as uncontested director elections (for meetings held before January 1, 2010) and ratification of auditors, without voting instructions from beneficial owners. We encourage all beneficial holders to vote by promptly returning to their brokers or other nominees the voting instruction form they receive from their nominees. Thus, if you do not give your broker specific instructions on Proposal 2, your shares may be treated as “broker non-votes” and may not be voted on this matter, and, in such event, your shares will not be counted in determining the number of shares necessary for approval of Proposal 2, although they will count for purposes of determining whether a quorum exists.

An automated system administered by the Company’s transfer agent will tabulate votes cast by proxy at the meeting, and the inspector of elections appointed for the meeting will tabulate votes cast in person at the meeting.

The Company will bear the cost of soliciting proxies. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners. The Company expects to use the services of The Altman Group to assist in soliciting proxies and, in such event, the Company expects to pay approximately \$3,000 for such services. Original solicitation of proxies by mail may be supplemented by telephone, telegram, facsimile, electronic mail or personal solicitation by directors, officers or other regular employees of the Company or, at the Company’s request, The Altman Group. No additional compensation will be paid to the Company’s directors, officers or other regular employees for such services.

### **Householding of Annual Meeting Materials**

Some brokers and other nominee record holders may be participating in the practice of “householding” proxy statements and annual reports. This means that only one (1) copy of the Proxy Statement and annual report may have been sent to multiple shareholders in a shareholder’s household. The Company will promptly deliver a separate copy of either document to any shareholder who contacts the Company’s investor relations department at (408) 435-0800, or by mail to Investor Relations Department, Pericom

Semiconductor Corporation, 3545 North First Street, San Jose, California 95134, requesting such copies. If a shareholder is receiving multiple copies of the Proxy Statement and annual report at the shareholder's household and would like to receive a single copy of the proxy statement and annual report for a shareholder's household in the future, shareholders should contact their broker, other nominee record holder, or the Company's investor relations department to request mailing of a single copy of the proxy statement and annual report.

**PROPOSAL NO. 1  
ELECTION OF DIRECTORS**

Pursuant to the Bylaws of the Company, our Board of Directors has fixed the authorized number of directors at seven as of the date of the Annual Meeting. Seven directors will be elected at the Annual Meeting. Each of the nominees named below currently serves as a director of the Company, and each such nominee has consented to being named in this proxy statement and, if elected as a director of the Company, to serve until his term expires.

The seven nominees receiving the highest number of affirmative votes will be elected as directors. Unless otherwise instructed, the proxy holders will vote the proxies they receive for the seven nominees of the Board of Directors named below. In the event that any nominee of the Board is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee designated by the present Board of Directors to fill the vacancy. It is not expected that any nominee will be unable or will decline to serve as a director, but if such unexpected event occurs, the proxy holders intend to vote all proxies received by them for such substitute nominee(s) as our Board of Directors may propose.

The term of office of each person elected as a director will continue until the next Annual Meeting of Shareholders or until his successor has been elected and qualified.

Set forth below are the names, ages, committee memberships and certain biographical information relating to the director nominees as of October 15, 2009.

These laws require filing accurate periodic reports with the SEC, making and keeping accurate books and records, devising and maintaining adequate internal accounting controls, and accurately providing the officer's certification that must accompany a publicly traded company's periodic reports. The order states that the two individuals failed to implement and maintain adequate internal controls and falsely certified that UTStarcom's financial statements and books and records were accurate, as more fully set forth in the order. ## **Board Meetings and Committees**

The Board of Directors of the Company held four meetings during fiscal year 2009 ("FY 2009"). During the last fiscal year, no director attended fewer than 75% of all the meetings of the Board and its committees on which he served. The Company encourages, but does not require, its Board members to attend the annual shareholders meeting.

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board has determined that a majority of the current Board members, Dr. Lee, Mr. McKenna, Dr. Wong, Mr. Sophie, and Mr. Yang, is "independent" as that term is defined in the listing rules of the NASDAQ Stock Market LLC. In addition, Millard (Mel) Phelps, who served as a director during part of FY 2009 but did not stand for re-election at the 2008 annual meeting, was determined to be independent under those listing rules.

The current members of the Audit Committee are Dr. Lee, Dr. Wong, Dennis McKenna, and Mr. Sophie, who serves as Chairman since joining the Board in August 2008. The Audit Committee held four meetings during FY 2009. The primary function of the Audit Committee is to assist the Board of Directors in overseeing management's conduct of the Company's (1) financial reporting process, including the financial reports and other financial information provided to the public; (2) systems of internal controls; and (3) annual independent audit of the Company's financial statements. See "Report of the Audit Committee of the Board of Directors." The Board adopted and approved a written charter for the Audit Committee in April 2000 and approved an amended and restated charter in July 2004. The Board has determined that all members of the Audit Committee are "independent" as that term is defined in the listing rules of NASDAQ.

The Board of Directors has further determined that Mr. Sophie qualifies as an "audit committee financial expert," as defined in applicable SEC rules.

The current members of the Compensation Committee are Dennis McKenna, Edward Yang, and Dr. Lee, who serves as Chairman. The Compensation Committee held three meetings during FY 2009. The Compensation Committee, operating under a written charter, reviews and approves the compensation and benefits for the Company's executive officers, and administers the Company's 2004 Stock Incentive Plan, 2001 Stock Incentive Plan, the 1995 Stock Incentive Stock Plan and 2000 Employee Stock Purchase Plan. The Board has determined that all members of the Compensation Committee are "independent" as that term is defined in the listing rules of NASDAQ.

The Nominating and Corporate Governance Committee held no formal meetings in FY 2009, although the Committee was active in identifying and proposing two new Board members. The Nominating and Corporate Governance Committee was formed in October 2001 and operates under a written charter. In October 2007, the Board amended the Nominating and Compensation Committee's charter to provide for greater focus on identifying potential Board of Director candidates. The current members of the Nominating and Corporate Governance Committee are Michael Sophie, Edward Yang, and Dr. Wong, who serves as Chairman. The Board has determined that all members of the Nominating and Corporate Governance Committee are "independent" as that term is defined in the listing rules of NASDAQ. The Nominating and Corporate Governance Committee monitors the size and composition of the Company's Board of Directors and addresses corporate governance matters. Prior to the Company's Annual Meeting of Shareholders, the Nominating and Corporate Governance Committee, pursuant to guidelines designed to highlight the necessary qualifications, assists the existing Board in selecting the candidates who will be presented to the Company's shareholders for election to serve the Company until the next annual meeting.

The Nominating and Corporate Governance Committee considers and makes recommendations to the Board of Directors regarding any shareholder recommendations for candidates to serve on the Board of Directors. However, it has not adopted a formal process for that consideration because it believes that the informal consideration process has been adequate given the historical

absence of shareholder proposals. The Nominating and Corporate Governance Committee will review periodically whether a more formal policy should be adopted. Shareholders wishing to recommend candidates for consideration by the Nominating and Corporate Governance Committee may do so by writing to the Secretary of the Company at 3545 North First Street, San Jose, California 95134, providing the candidate's name, biographical data and qualifications, a document indicating the candidate's willingness to act if elected, and evidence of the nominating shareholder's ownership of the Company's Common Stock at least 120 days prior to the anniversary of the date of the prior year's annual meeting, to assure time for meaningful consideration by the Nominating and Corporate Governance Committee. A notice recommending that the committee consider a candidate will not be treated as a proposal to bring business before an annual meeting unless the proponent reasonably indicates the latter intention and complies with the advance notice provisions of our bylaws referred to below under "Deadline for Receipt of Shareholder Proposals." There are no differences in the manner in which the Nominating and Corporate Governance Committee evaluates nominees for director based on whether the nominee is recommended by a shareholder.

During FY 2009, the Nominating and Corporate Governance Committee engaged David Powell Inc., a third-party recruiting firm, to identify and evaluate new director candidates. David Powell Inc. identified and evaluated Mr. McKenna as a new candidate, and he was appointed by the Board of Directors to serve as a member of the Board in March 2009. During FY 2009, independent directors serving on the Nominating and Corporate Governance Committee identified and evaluated Mr. Yang as a new candidate, and he was appointed by the Board of Directors to serve as a member of the Board in May 2009.

In reviewing potential candidates for the Board, the Nominating and Corporate Governance Committee considers the individual's experience in the semiconductor and related industries, the general business or other experience of the candidate, the needs of the Company for an additional or replacement director, the personality of the candidate, the candidate's interest in the business of the Company, as well as numerous other subjective criteria. Of greatest importance is the individual's integrity, willingness to get involved and ability to bring to the Company experience and knowledge in areas that are most beneficial to the Company. The Board intends to continue to evaluate candidates for election to the Board on the basis of the foregoing criteria.

The Board has determined that all members of the Nominating and Corporate Governance Committee are "independent" as that term is defined in the listing rules of NASDAQ.

The Board formed its Mergers and Acquisitions Committee in August 2009. This Committee assists Pericom with evaluating mergers and acquisitions opportunities and it also may approve specified mergers and/or acquisitions or other transactions as such approval authority is delegated to it from time to time by the Board. The current members of the Mergers and Acquisitions Committee are Dr. Lee, Edward Yang and Dennis McKenna, who serves as Chairman.

### **Access to Corporate Governance Policies**

The Company has adopted a Code of Business Conduct and Ethics that applies to, among others, the Company's principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions, which is designed to qualify as a "code of ethics" within the meaning of SEC rules. Any amendments to or waivers from, any provision of the Code of Business Conduct and Ethics will be promptly disclosed to the public as respectively required by SEC rules and the NASDAQ listing rules. To the extent permitted by such requirements, the Company intends to make such public disclosure by posting the relevant material on its website in accordance with SEC rules.

The charters of the Company's Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee and the Company's Code of Business Conduct and Ethics are available on the Company's website at [www.pericom.com](http://www.pericom.com). Copies of such documents will also be provided to any shareholder upon written request directed to Investor Relations, Pericom Semiconductor Corporation, at 3545 North First Street, San Jose, California 95134.

### **Communication between Shareholders and Directors**

The Company's Board of Directors currently does not have a formal process for shareholders to send communications to the Board of Directors. Nevertheless, every effort has been made to ensure that the views of shareholders communicated to our Board are heard by the Board or individual directors, as applicable, and that appropriate responses are provided to shareholders on a timely basis. The Board of Directors does not recommend that formal communication procedures be adopted at this time because it believes that informal communications are sufficient to communicate questions, comments and observations that could be useful to the Board.

However, shareholders wishing to formally communicate with the Board of Directors may send communications directly to Alex C. Hui, Chairman of the Board, c/o Pericom Semiconductor Corporation, 3545 North First Street, San Jose, California 95134.

### Compensation Committee Interlocks and Insider Participation

Pericom Technology, Inc., a British Virgin Islands corporation (“PTI”), described below under “Certain Relationships and Related Transactions,” does not have a compensation committee and the duties generally ascribed to such a committee are undertaken by the board of directors. Dr. Chi-Hung (John) Hui, an executive officer and director of the Company, is a director of PTI. Mr. Alex Hui serves as Chief Executive Officer and a director of PTI, and he is also an executive officer and director of the Company.

### Relationships among Directors or Executive Officers

Mr. Hui and Dr. Hui are brothers.

### Director Compensation

### Share-Based Awards

Under our non-employee director compensation policy, a non-employee director, at the time of his or her election or appointment to the Board receives (i) an initial option grant to purchase 8,000 shares of the Company’s Common Stock (the “Initial Option Grant”), and (ii) an initial grant of 4,000 restricted stock units of the Company’s Common Stock (the “Initial Unit Grant”), both of which vest over 3 years as more fully described below. Each non-employee director receives an annual award consisting of (i) an option grant to purchase 3,000 shares of Common Stock (the “Annual Option Grant”), and (ii) a grant of 1,500 restricted stock units, both of which vest after one year. The initial and annual awards described above are granted under, and are subject to, the Company’s 2001 Stock Incentive Plan or 2004 Stock Incentive Plan. The exercise price of stock option grants made under the Initial and Annual Option Grant is equal to the closing price of a share of the Company’s Common Stock on the NASDAQ Global Select Market on the date of grant.

A restricted stock unit awarded to our non-employee directors represents a contractual right to receive one share of the Company’s Common Stock if the time-based vesting requirements are satisfied. Subject to the non-employee director’s continued service, the restricted stock units subject to the Initial Unit Grant vest in three substantially equal annual installments on each of the first through third anniversaries of the grant date. Restricted stock units will generally be paid in an equivalent number of shares of the Company’s Common Stock as they become vested.

The table below summarizes the compensation earned by our non-employee directors during the fiscal year ended June 27, 2009. Mr. Alex Chiming Hui and Dr. Chi-Hung (John) Hui are employees, executive officers, and directors of Pericom. They are not included in the table below because they do not receive any additional compensation for services provided as directors.

**PROPOSAL NO. 2  
APPROVAL OF THE PERICOM SEMICONDUCTOR CORPORATION  
2010 EMPLOYEE STOCK PURCHASE PLAN**

**General**

The Company currently maintains the 2000 Employee Stock Purchase Plan, pursuant to which employees are provided with the opportunity to purchase shares of the Common Stock of the Company (the “Current Purchase Plan”). The Current Purchase Plan is scheduled to expire in October 2010. In anticipation of the expiration of the Current Purchase Plan, the Board has adopted a new employee stock purchase plan, subject to shareholder approval. The Company believes that an employee stock purchase plan is necessary for us to maintain and compete for qualified employee talent in our market, including markets outside of the United States, and to enable the broad range of our employees to continue to purchase the Common Stock of the Company.

The Company’s shareholders are being asked to approve the adoption of the Company’s 2010 Employee Stock Purchase Plan (the “Purchase Plan”). In the following discussion of the Purchase Plan capitalized terms have the same meanings as defined in the Purchase Plan, unless otherwise noted.

The purpose of the Purchase Plan is to provide employees of the Company and its Designated Parents, Subsidiaries and Affiliates with an opportunity to purchase Common Stock of the Company (the “Shares”) through accumulated payroll deductions. The Purchase Plan provides for the grant of options that qualify as an “Employee Stock Purchase Plan” under Section 423 of the Internal Revenue Code of 1986, as amended (the “Code”). The Purchase Plan also provides for the ability to grant options that do not qualify with Section 423 of the Code in order to provide the Company increased flexibility to grant options to its non-U.S. employees. The provisions of the Purchase Plan providing for the grant of options intended to qualify under Section 423 of the Code shall be construed so as to extend and limit participation in a manner consistent with the requirements of that section of the Code. The Purchase Plan is intended to enable the Company and its Designated Parents, Subsidiaries or Affiliates to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees, to promote the success of the Company’s business, and to increase shareholder value by further aligning the interests of its employees with the interests of the Company’s shareholders by providing an opportunity to benefit from stock price appreciation that generally accompanies improved financial performance.

A total of 2,000,000 Shares have been reserved for issuance under the Purchase Plan. If approved by the shareholders of the Company, the Purchase Plan will become effective on the day preceding the last exercise date of the Current Purchase Plan.

New Plan Benefits. As of the date of this Proxy Statement, no officer has been granted any rights under the proposed Purchase Plan. Accordingly, the benefits to be received pursuant to the Purchase Plan by the Company’s officers and employees are not determinable at this time.

**The required vote for Proposal No. 2 is described above under “Information Concerning Solicitation and Voting – Voting and Solicitation.”**

**The Board of Directors unanimously recommends a vote FOR approval  
of the 2010 Employee Stock Purchase Plan**

A general description of the principal terms of the Purchase Plan as proposed is set forth below. This description is qualified in its entirety by the terms of the Purchase Plan, a copy of which is attached to this Proxy Statement as Appendix A and is incorporated by reference herein.

## **General Description**

The purpose of the Purchase Plan is to provide employees of the Company who participate in the Purchase Plan with an opportunity to purchase Shares through a company-sponsored program. The Purchase Plan provides for the right of participants to make purchases that are intended to qualify under the provisions of Section 423 of the Code and also provides for purchase rights that do not so qualify. Employees of the Company and its Designated Parents or Subsidiaries are eligible to participate in the Purchase Plan. Employees of a Designated Affiliate of the Company may also participate in the Purchase Plan, but they are not eligible to make purchases that qualify under Section 423 of the Code. Directors who are not employees are not eligible to participate. As of October 15, 2009, approximately 194 persons were in the class of persons eligible to participate in the Purchase Plan.

A total of 2,000,000 Shares have been reserved for issuance under the Purchase Plan. If approved by the shareholders of the Company, the Purchase Plan will become effective on the date immediately preceding the last exercise date of the Current Purchase Plan. Unless terminated earlier by the Board, the Purchase Plan will terminate on the earlier of the date on which all of the Shares available for issuance under the Purchase Plan have been sold and the date on which all options have been exercised in connection with the dissolution, liquidation or Change in Control of the Company.

Any person who is employed by the Company (or any of its Designated Subsidiaries, Parents or Affiliates) is eligible to participate in the Purchase Plan provided that the employee is employed on the first day of an Offering Period and subject to certain limitations imposed by Section 423(b) of the Code. Eligible employees become participants in the Purchase Plan by delivering to the Company a subscription agreement authorizing payroll deductions prior to the commencement of the applicable Offering Period. An eligible employee's payroll deductions may be up to 10% of the employee's eligible compensation, subject to certain limitations.

The Purchase Plan is implemented by consecutive Offering Periods of six months in duration or such other period as may be established by the Board or administering committee. The Board or the administering committee may alter the duration of the Offering Periods, up to a maximum of 27 months, without shareholder approval. Certain additional limitations on the number of Shares which may be purchased in any calendar year are imposed by the Code.

The price per share at which Shares are sold under the Purchase Plan is established by the Board or the administering committee, but may not be less than the lower of (i) 85% of the fair market value of the Shares on the date of commencement of the Offering Period and (ii) 85% of the fair market value of the Shares on the Exercise Date. As of October 15, 2009, the fair market value of a Share was \$11.95. The fair market value of the Shares on a given date is determined by the Board based upon the closing sale price of the Shares on the NASDAQ Global Select Market as of such date. The number of Shares which may be purchased is subject to adjustment in the event of a stock split, stock dividend or other similar change in the Shares or the capital structure of the Company. The Company makes no cash contributions to the Purchase Plan, but bears the expenses of administration. The Purchase Plan may be administered by the Board or a committee of the Board, each of which has the authority to determine the terms and conditions under which Shares are to be offered and corresponding options are to be granted under the Purchase Plan for any Offering Period during the term of the Purchase Plan, and to resolve all questions relating to the administration of the plan, among other powers and authority.

On the last day of the offering period, the Company will automatically apply the funds in the participant's account to purchase at the designated purchase price whole Shares only. Notwithstanding the foregoing, (i) no employee will be permitted to subscribe for Shares under the Purchase Plan if, immediately after the grant of the option, the employee would own 5% or more of the voting power or value of all classes of stock of the Company or of a parent or of any of its subsidiaries (including stock which may be purchased under the Purchase Plan or pursuant to any other options), (ii) no employee may be granted an option which would permit the employee to buy pursuant to the Purchase Plan more than \$25,000 worth of stock (determined at the fair market value of the shares at the time the option is granted) in any calendar year, and (iii) employees shall not be permitted in any Offering Period to purchase more than 1,000 shares or accrue more than \$10,000 to purchase Shares in any Offering Period. In the event that the limits are exceeded, the participant's payroll deduction or other contributions will be returned, generally without interest, unless otherwise required under applicable law.

A participant may increase (up to the 10% rate limit) or decrease the rate of his or her payroll deduction for the remainder of an Offering Period by filling out a new subscription agreement and delivering it to the Company (or its designee). The reduced rate

will become effective with the first full payroll period following five business days after the Company receives the form unless the Company elects to process changes more quickly, and will remain in effect for the entire Offering Period and each subsequent Offering Period.

A participant's participation in a given Offering Period may be terminated in whole, but not in part, by signing and delivering to the Company a notice of withdrawal from the Purchase Plan. Such withdrawal may be elected at any time prior to the end of the applicable Offering Period (or earlier, to the extent required by the Board or the administering committee). Any withdrawal by the participant of accumulated payroll deductions for a given Offering Period automatically terminates the participant's participation in that Offering Period.

No rights or accumulated payroll deductions of a participant under the Purchase Plan may be pledged, assigned or transferred for any reason and any such attempt may be treated by the Company as an election to withdraw from the Purchase Plan.

In the event of a participant's death, any accumulated payroll deductions not used to purchase Shares will be paid to and any Shares credited to his or her account will be transferred to the participant's heirs or estate as soon as reasonably practical following the participant's death.

The maximum number of Shares available for sale under the Purchase Plan, the maximum number of Shares that each participant may purchase during each offering period, as well as the price per Share and number of Shares covered by each option under the Purchase Plan that has not yet been exercised will be proportionately adjusted for any increase or decrease in the number of issued Shares resulting from any extraordinary dividend or other extraordinary distribution, recapitalization, stock split, reverse stock split, split-up or spin-off, or any other change in the number of Shares effected without receipt of consideration by the Company.

In the event of a proposed dissolution or liquidation by the Company, the offering period then in progress will be shortened by setting a new exercise date, and will terminate immediately prior to the consummation of the proposed dissolution or liquidation, unless otherwise provided by the Board or the administering committee. In the event of a Change in Control, to the extent an outstanding option is not assumed by the successor corporation, the offering period then in progress will be shortened by setting a new exercise date prior to the consummation of the Change in Control.

The Purchase Plan may be amended or terminated by the Board without shareholder approval, subject to applicable law or stock exchange rules, except that any amendment or termination that adversely affects outstanding rights under the Purchase Plan will require the consent of the affected participant.

### **Certain Federal Tax Consequences**

The following summary briefly describes U.S. federal income tax consequences of rights under the Purchase Plan, but is not a detailed or complete description of all U.S. federal tax laws or regulations that may apply, and does not address any local, state or other country laws. Therefore, no one should rely on this summary for individual tax compliance, planning or decisions. Participants in the Purchase Plan should consult their own professional tax advisors concerning tax aspects of rights under the Purchase Plan. Nothing in this proxy statement is written or intended to be used, and cannot be used, for the purposes of avoiding taxpayer penalties. The discussion below concerning tax deductions that may become available to us under U.S. federal tax law is not intended to imply that we will necessarily obtain a tax benefit or asset from those deductions. Taxation of equity-based payments in other countries is complex, does not generally correspond to federal tax laws, and is not covered by the summary below.

Amounts deducted from a participant's pay under the Purchase Plan are part of the employee's regular compensation and remain subject to federal, state and local income and employment withholding taxes. A participant will not recognize any additional income at the time the participant elects to participate in the Purchase Plan, or, in the case of purchase rights granted under the 423 component of the Purchase Plan, purchases Shares under the Purchase Plan.

**423 Component.** Rights to purchase Shares granted under the 423 component of the Purchase Plan are intended to qualify for favorable federal income tax treatment associated with rights granted under an employee stock purchase plan which qualifies under the provisions of Section 423(b) of the Code. Under these provisions, no income will be taxable to a participant until the Shares purchased under the Purchase Plan are sold or otherwise disposed of.

If a participant disposes of Shares purchased pursuant to the Purchase Plan within two (2) years after the first day of the Offering Period or within one (1) year of the purchase of the Shares (the "Minimum Holding Period"), the participant will recognize,

for federal tax purposes, ordinary compensation income at the time of disposition of the Shares in an amount equal to the excess of the fair market value of the Shares on the day the Shares were purchased over the purchase price the participant paid for the Shares. In addition, a participant generally will recognize a capital gain or loss in an amount equal to the difference between the amount realized upon the disposition of the Shares and the participant's basis in the Shares (that is, the purchase price plus the amount taxed as compensation income).

If a participant disposes of the Shares purchased pursuant to the Purchase Plan at any time after the Minimum Holding Period, the participant will recognize, for federal tax purposes, ordinary compensation income at the time of such disposition in an amount equal to the lesser of (a) the excess (or zero if there is no excess) of the fair market value of the Shares at the time of such disposition over the amount paid for the Shares, or (b) the excess of the fair market value of the Shares as of the date the participant entered the offering period over the purchase price (determined as of the date the participant entered the offering period). In addition, the participant generally will recognize a capital gain or loss in an amount equal to the difference between the amount realized upon the disposition of the Shares and the participant's basis in the Shares (that is, the purchase price plus the amount, if any, taxed as compensation income).

The Company generally will not be allowed any additional deduction by reason of a participant's purchase of Shares under the Purchase Plan. However, if a participant disposes of the Shares purchased pursuant to the Purchase Plan within the Minimum Holding Period, the Company will be entitled to a deduction in an amount equal to the compensation income recognized by the participant. If a participant disposes of Shares purchased under the Purchase Plan after the Minimum Holding Period, the Company will not receive any deduction for federal income tax purposes with respect to the Shares.

**Non-423 Component.** If the purchase right is granted under the non-423 component of the Purchase Plan, then the amount equal to the difference between the fair market value of the Shares on the purchase date and the purchase price will be treated as ordinary income at the time of such purchase. In such instances, the amount of such ordinary income will be added to the participant's basis in the shares, and any additional gain or resulting loss recognized on the disposition of the shares after such basis adjustment will be a capital gain or loss.

The Company will generally be entitled to a deduction in the year of purchase equal to the amount of ordinary income realized by the participant as a result of such disposition, subject to the satisfaction of any tax-reporting obligations. For U.S. participants, FICA/FUTA taxes will be due in relation to ordinary income earned as a result of participation in the non-423 component of the Purchase Plan.

The Audit Committee will periodically grant general pre-approval of categories of audit and non-audit services. Any other services must be specifically approved by the Audit Committee, and any proposed services exceeding pre-approved cost levels must be specifically pre-approved by the Audit Committee. In periods between Audit Committee meetings, the Chairman of the Audit Committee has the delegated authority from the Committee to pre-approve additional services, and his pre-approvals are then communicated to the full Audit Committee at its next meeting.

No audit-related, tax or other non-audit services were approved by our Audit Committee pursuant to the *de minimis* exception to the pre-approval requirement under paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X during the 2009 or 2008 fiscal year.

## COMPENSATION DISCUSSION AND ANALYSIS

This section discusses our compensation program in FY 2009 for Alex Chiming Hui, our Chief Executive Officer (the “CEO”); Chi-Hung (John) Hui, our Senior Vice President, Research and Development; Angela Chen our Vice President, Finance and Chief Financial Officer; and Dr. Gerry (Shao-Hung) Liu, Senior Vice President, Marketing (collectively, the “named executive officers”).

### Overview of Executive Compensation Program and Objectives

We believe we have a results-oriented executive compensation program. Our overall target executive compensation levels are in accordance with market compensation, but actual payment of the annual performance bonuses requires successful Company and individual performance. Our executive compensation program is designed to attract and retain qualified executive officers with strong leadership skills, commensurate knowledge and appropriate experience, while also considering the level of responsibility and performance required in each of the executive positions. In general, executives with the highest level and amount of responsibility have the lowest percentage of their annual compensation as base salary and highest percentage of their compensation at risk. In FY 2009, our executive compensation program consisted of these principal elements: (1) base salary; (2) an annual performance cash bonus, (3) long term incentive compensation in the form of stock options and restricted stock units; and (4) personal benefits.

### Objectives of our Compensation Program

The primary goal of our executive compensation program is to create and enhance the long-term value of shareholders’ equity. To reach this primary goal, we use various compensation elements, including base salary, performance based cash compensation, incentive share-based compensation and an employee stock purchase plan. We have developed our programs to fulfill several secondary goals:

- To attract talent to our executive management team;
- To align our executives’ objectives with the objectives of our shareholders;
- To encourage the development of long-term corporate financial goals;
- To foster fair treatment and respect for all our employees;
- To empower our team to perform their functions ethically and forthrightly; and
- To retain our professionals for long-term productive careers.

We review each executive’s compensation elements and the results each executive has obtained on an annual basis, modifying each package to optimize our team’s performance. In particular, the Compensation Committee (“the Committee”) of the Board of Directors reviews:

- The executive officer’s level of responsibilities;
- The executive officer’s achievement of goals and objectives which were established by the Committee for that executive in the prior year;
- The executive officer’s contribution to our financial results;
- The executive officer’s introduction of new initiatives to enhance the Company’s performance; and
- The executive officer’s demonstrated leadership effectiveness.

We set overall target compensation in line with the average compensation level of selected companies to which we annually compare our executive compensation (as further described under “Elements of Our Compensation Program: Why We Chose Each, How Each Was Related to Our Objectives and How We Determined the Amounts” below). Fifty percent of actual bonus compensation depends on the successful achievement of financial performance goals against a specific performance metric for the Company and the remaining fifty percent of the annual bonus compensation depends on successful achievement of specified individual performance goals for each Executive.

## What Our Compensation Program is Designed to Reward

Our executive compensation program is designed primarily to reward the achievement of financial goals using metrics which we believe are the best indicators of success for our business. Since we believe that a growing, profitable company creates stockholder value, the design of our executive compensation program in FY 2009 emphasizes the achievement of various measures of profitability and growth.

Company performance comprises fifty percent of the annual performance cash bonus plan. The metric we selected for our annual performance cash bonus plan is our actual diluted earnings per share for the fiscal year in comparison to previously established diluted earnings per share goal. The remaining fifty percent of the annual performance cash bonus is based on individual metrics which were tailored to each executive's position and role at Pericom. Similar executive responsibilities were assigned similar bonus percentages but revenue goals were more highly weighted. We designed our annual performance cash bonus plan to emphasize stockholder value creation through improvement in the financial performance of our Company and achievement of individualized targets relating to the portions of our business that these executives oversee and manage.

Through the use of stock options and restricted stock units, our executive compensation program is also designed to reward growth in our stock price, which directly benefits our stockholders, and to provide strong incentives for the executives to remain employed with us.

## Elements of Our Compensation Program: Why We Chose Each, How Each Was Related to Our Objectives and How We Determined the Amounts

In FY 2009, our executive compensation program consisted of the following four principal elements: (1) base salary; (2) annual performance cash bonus; (3) long-term incentive compensation in the form of stock options and restricted stock units; and (4) personal benefits. The principal elements of our executive compensation program in FY 2009 are described below.

**Base Salary.** Base salary represents the single, fixed component of the four principal elements of our executive compensation program and is intended to provide a baseline, minimum amount of annual compensation for our executives.

Our Chief Executive Officer (the "CEO") reviews the compensation of each of the other executive officers each year, applying various measurement scores to each officer's achievement of certain performance goals which were set for the prior year. The CEO presents the results of the measurements, along with his current compensation recommendations, to the Compensation Committee of the Board of Directors, comprised of independent directors, annually. The Committee reviews each executive's performance, as measured and reported by the CEO, reviews the overall Company's performance as related to the goals set by the Board of Directors and either grants or amends the CEO's recommendations, based on the Committee members' judgment of the facts and circumstances.

The Committee uses a variety of tools to assist in determining appropriate executive officer compensation and the components of that compensation, including, but not limited to, our performance, the executive's performance, independent surveys, and comparisons to public records of similarly sized industry peers. In considering the compensation by competitors, the Committee did not utilize any specific or numeric percentile or other benchmark in the comparison with these industry peers. Currently, the companies used in compensation comparisons are:

Ikanos Communications.  
Monolithic Power Systems Inc.  
Netlogic Microsystems Inc.  
Pixelworks, Inc.  
PLX Technology, Inc.  
Trident Microsystems, Inc.

The Compensation Committee of the Board of Directors, comprised of independent outside directors, determines the annual salary for our CEO. The Compensation Committee determines the CEO's compensation following criteria similar to those used to determine the compensation for our other executive officers. Because our CEO is the most responsible for the Company's overall performance, more of his potential compensation is tied to the Company's financial performance.

Special Study for Fiscal 2009. In the spring of 2008, the Compensation Committee retained Compensia, Inc., a national compensation consulting firm ("Compensia") to perform a one-time analysis of the cash and non-cash compensation of Pericom's senior officers as well as the equity compensation of Pericom employees generally. This analysis included comparative data from a peer group consisting of the following:

Actel	Advanced Analogic Technologies	Applied Micro Circuits
Cirrus Logic	DSP Group	Exar
Integrated Silicon Solutions	Lattice Semiconductor	Leadis Technology
Micrel	Mindspeed Technologies	Monolithic Power Systems
Netlogic Microsystems	PLX Technology	Rambus
Semtech	Techwell	Volterra Semiconductor

Compensia presented the results of its analysis to the Committee, and the presentation included observations that Pericom's executive target total cash compensation is below the 25th percentile of the chosen peer group, executive target total direct compensation is between the 25th and 50th percentiles of the chosen peer group, and executive unvested equity holdings are below typical benchmarks. The Committee recommended to the Board that the compensation of the executives of Pericom should be increased to be closer to the median of the peer group norm as identified by Compensia. The Committee observed that this should be done gradually, although the Committee believed that an increase of unvested equity holdings was more urgent for purposes of retention. As a result of the Compensia study and other considerations, for fiscal 2009 the Committee increased the CEO's annual base salary by 2% and the base salaries of the other executive officers between 1% and 2%, except that the CFO received an 11% increase.

Our CEO, Mr. Hui, also serves as the chief executive officer and on the Board of Directors of our subsidiary, SaRonix-eCERA Corporation ("SRe"). In FY 2009, SRe paid Mr. Hui a salary of \$31,336. In FY 2008, SRe paid Mr. Hui a salary of \$29,576, plus a \$22,977 stock dividend and a bonus of \$24,278. In FY 2007, SRe paid Mr. Hui a salary of \$27,374 and a bonus of \$20,144.

**Annual Performance Cash Bonus.** Our annual performance cash bonus plan is formula-based and seeks to motivate our senior executives by rewarding them when our annual financial performance goals are met or exceeded and on the executive officer's contribution to the Company's achievement of specified financial and performance goals which we measure and monitor on an annual basis. The specific bonus formulas were selected to achieve target cash bonus amounts for our named executive officers based on corporate financial performance goals and on non-financial performance goals and targets that we chose for FY 2009. The specific bonus formulas have also been selected so that the relative difficulty of achieving the FY 2009 target bonuses generally increased as compared to achieving the fiscal 2008 target bonuses. We intend to continue this performance cash bonus plan for fiscal 2010.

The Company's financial performance goals for FY 2009 were tied to diluted income per share. The Company's non-financial performance goals were assigned to individual executive officers and related to each officer's function in the Company. These non-financial goals included such things as attaining a certain market-share, industry leadership, product innovation and development, operational efficiency and excellence, cost containment, innovation, development of new markets, increases in sales to existing customers, process improvement, retention of staff, meeting deadlines, improvement in customer satisfaction and reducing waste.

#### *Corporate Financial Performance Goals*

The Committee determined the financial performance goal for the Company for FY 2009 would be to achieve diluted income per share of \$0.79 for the fiscal year. One-half of each executive officer's bonus payment was calculated based on multiplying one-half of the officer's target bonus by (a) the percentage of the Company's actual financial performance to its target goal and (b) the percentage rating of the executive officer's actual performance against the executive officer's target goals. For example, if the Company reached 75% of its diluted EPS target for FY 2009, an executive officer met 80% of the individual goals for his position and the target maximum bonus was \$50,000, then the officer would have received 75% x 80% x 50,000/2 or \$15,000 for the Company's financial performance portion of his bonus.

#### *Corporate Non-Financial Performance Goals*

The remaining one-half of each executive officer's bonus was determined based on such executive officer's performance, unrelated to the Company's financial performance. Continuing the illustration in the previous paragraph, with the executive officer achieving 80% of his or her individual goals, the officer would receive 80% x 50,000/2 or \$20,000 for the non-financial performance portion of the bonus plan.

The Compensation Committee believes that this bonus plan is fair and equitable, rewarding strong performance while penalizing poor performance even in situations where the Company does well.

The Committee determined a minimum level of individual performance which each executive officer had to obtain before he or she could be eligible for any part of his or her bonus. If an individual executive officer did not reach at least the sixtieth percentile of achievement in his or her personal performance measurement in FY 2009 that officer would not be eligible for any part of the bonus. If the Company did not reach at least the fiftieth percentile in its performance measurement, the Company performance based part of the bonus would not have been paid.

The following table lists the specific performance goals that we set for each of our executive officers for FY 2009 and weighting assigned to corporate non-financial performance goals:

<u>Named Executive Officer</u>	<u>Individual Performance Goals Set for FY 2009</u>
Alex Chiming Hui	Achievement of predetermined Corporate EPS performance and the average combined performance of the executive officer staff (collectively weighted at 100%)
Chi-Hung (John) Hui	Achieve research, development and implementation of advanced product features for specific product lines and for new business opportunities (collectively weighted at 85%)  Achieve implementation of other advanced product features for a specific product line (15%)
Angela Chen	Implementation of information technology infrastructure, performance of specific reporting goals (collectively weighted at 65%)  Performance of specific financial goals (collectively weighted at 35%)
Gery (Shao-Hung) Liu	Increase margin and revenue share for specific product lines and territories, achieve specific revenue growth for new product and new design introductions (collectively weighted at 65%)  Marketing and product proposals and assessments, other operating objectives and other financial measurements (collectively weighted at 35%)

In FY 2009 the Compensation Committee set the CEO's bonus at a maximum level of 45% of his base salary provided 100% of the Company's financial performance and 100% of his individual goals were reached. Similarly, the maximum bonuses of the other executive officers for FY 2009 range from 25% to 35% of those executives' base salaries provided that 100% of the Company's financial performance and 100% of each officer's individual goals were reached.

We believe the most important factor against which we measure each executive officer's performance is delivery of the Company's financial performance in comparison to target, and secondarily the individual's performance in comparison to individual objectives and goals. Accordingly, as the Company's actual diluted EPS for FY 2009 was \$0.24 or 30% of the \$0.79 target, the Committee determined that no bonuses would be paid to the executives for the year.

Because our performance cash bonus plan is incentive for performance to occur over the bonus plan period, the awards under this plan are reported in the Non-Equity Incentive Plan columns of the Summary Compensation and Grants of Plan-Based Awards for the Fiscal Year Ended June 27, 2009 tables under "Executive Compensation" below.

**Long-term Incentive Compensation—Stock Options and Restricted Stock Units.** In FY 2009, our equity incentive program for our senior executives consisted of stock options and awards of restricted stock units.

Stock options give the executives the right to purchase at a specified price (that is, the market price of our common stock on the date when the option is granted) a specified number of shares of our common stock for a specified period of time (generally ten years), and the executives can exercise this right as the options vest (i.e., become exercisable) for the remainder of the term. Our

executives realize value on these options only if our stock price increases (which benefits all shareholders) and only if the executives remain employed with us beyond the date their options vest. Generally, the options granted to our senior executives vest 25% each year over a period of four years and have an exercise price equal to fair market value of our common stock on the grant date.

Restricted stock units (“RSUs”) are also known as “full value awards” and are awards for which the recipient pays no exercise or purchase price. RSUs allow our executives to realize value irrespective of price movements in the stock as long as they remain employed with us beyond the date their RSUs vest. Thus RSUs can continue to provide incentives even as stock options go “underwater” in economic downturns. Generally, the RSUs granted to our senior executives vest 25% each year over a period of four years. An exception was that the Committee made a special RSU grant in February 2009 on which initial vesting is 50% after two years and 25% after each of years 3 and 4.

Our Compensation Committee determines the numbers of options to purchase the Company’s common stock and units of restricted stock that are granted to each executive officer. The Compensation Committee determines the size and mix of each grant based on the executive officer’s position, level of responsibility and longevity in employment. The Committee authorizes grants to executive officers periodically, and in most cases, annually. The Company issues stock options with exercise prices that equal the fair market value of the underlying stock on the date of the grant.

The Compensation Committee believes that equity awards align our executive officers’ interests with our shareholders’ interests by creating a direct association between the officers’ compensation and our shareholders’ return on their investment in the Company. The Committee also believes that this form of compensation provides our executives with a significant, long-term interest in the Company’s success and growth. In addition, the Committee believes equity awards help retain key executives, especially in the competitive market in which the Company operates.

Accordingly, the Committee determines appropriate levels of equity awards when reviewing each executive officer’s annual compensation package. The Committee considers several factors in their determination of appropriate awards, including prior performance, length of service, related responsibilities, other components of compensation, comparisons to awards to individuals in similar positions in our industry and the accomplishment of goals and directives.

The Company has not yet made stock option or restricted stock unit grants for fiscal 2010.

### **Personal benefits**

#### *Retirement Plans*

We offer all our employees an opportunity to participate in the Company-sponsored, employee-funded 401(k) plan. Each employee can defer a certain amount of their compensation up to a certain statutory limit. Income earned from the deferred compensation is not taxable until certain age and other requirements occur. This benefit provides retirement payments after the employee reaches a certain age.

#### *Employee Stock Purchase Plan*

We offer all our employees, except executive officers who also serve on the Board of Directors, entry into our employee stock purchase plan. This plan provides the employee the opportunity to purchase the Company’s common stock at a discounted price at certain preset times during the year. Currently, purchases under the plan can be made with up to 10% of the employee’s compensation up to certain limitations set by the IRS. The plan offers certain tax benefits to any employee who holds the stock for a prescribed length of time.

### ***Tax and Accounting Considerations in Compensation***

Income tax regulations involved in compensation, especially share-based compensation, are complex and restrictive. Numerous regulations and Internal Revenue Code (“IRC”) sections contribute to limitations on the amounts of compensation that we can deduct for income tax purposes and in which periods those deductions can be taken. As a result we employ independent tax experts to advise us on the proper treatment of our compensation plans.

In addition, IRC Section 162(m) disallows any tax deduction for compensation in excess of \$1 million paid to any executive officer whose total compensation is required by Securities and Exchange Commission rules to be reported in our annual proxy statement. The provisions of Section 162(m) exclude certain types of performance-based remuneration, but only if:

- the performance goals are set by a committee comprised of outside directors,
- the performance goals are disclosed to and approved by a majority of the shareholders prior to payment and
- if the committee determining the performance goals certifies that the goals have been satisfied.

While we have not exceeded this limitation in the past, the Compensation Committee may, in the future, elect to compensate any of our executive officers with amounts that may exceed this overall limitation.

We accrue the cost of our non-equity compensation periodically throughout the year, accruing approximately 25% of the expected cost each quarter. Once final calculations of the non-equity compensation are completed in the first quarter of the following fiscal year, we adjust the accrued balance to the actual cost incurred. In fiscal 2009, the bonus accrual was reversed before the books were closed.

We account for share-based compensation following FAS 123R. FAS 123R requires that we recognize the cost of stock option and restricted stock unit awards over the vesting period of the compensation for financial statement purposes, using the Black-Scholes-Merton stock-option valuation methodology.

#### ***Change in Control Agreements with Our Executive Officers***

All of our executive officers serve the Company on an at-will basis.

The Company entered into change in control agreements with each of the executive officers which provide a continuation of benefits and severance payments in the event of a change of control of the Company. These benefits and payments are described below under the heading “Potential Payments upon Termination or Change in Control.”

- (1) All such options vest, subject to continued employment with the Company, at a rate of 25% after the first year and monthly thereafter over a period of 36 months. The exercise price of each option set forth above was the closing price of our stock on NASDAQ on the grant date.
- (2) All such options vest, subject to continued employment with the Company, monthly over a period of 48 months. The exercise price of each option set forth above was the closing price of our stock on NASDAQ on the grant date.
- (3) All such options are fully vested.

The equity awards described above were granted pursuant to the Company's 1990, 1995 and 2001 Stock Option Plans or the Company's 2004 Stock Incentive Plan.

The Company has reported for years prior to FY 2009 information concerning stock options awarded to Alex Chiming Hui (the only named executive officer holding such options) by Pericom Taiwan, Ltd. ("PTL"), which in prior years was a majority-owned and consolidated subsidiary of the Company. No options to purchase PTL common stock were granted to or exercised by him or other named executive officers during FY 2009. In December 2008, the Company acquired the remaining minority interest in PTL and now wholly owns PTL. In connection with that acquisition, Mr. Hui (and the employees holding similar PTL options) agreed to cancel all outstanding PTL options held by them for no consideration. Therefore, as of June 27, 2009, none of the named executive officers held any equity awards granted by PTL.

The following table shows all stock options exercised and value realized upon exercise by each named executive officer in FY 2009. Although the Company granted restricted stock unit awards to the officers for the first time in FY 2009, none of those awards vested on or before June 27, 2009.

	Option Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$) (1)
Alex Chiming Hui	120,000	\$265,800
Angela Chen	----	----
Chi-Hung (John) Hui	80,000	284,189
Gerry (Shao-Hung) Liu	----	----

- (1) Value realized on exercise is the difference between the market price of Pericom common stock at the date of exercise and the exercise price per share exercised, multiplied by the number of shares exercised (whether or not any securities were sold).

#### Potential Payments upon Termination or Change in Control

All of the executive officers of the Company have entered into change of control agreements with the Company which provide for severance benefits and acceleration of option vesting in the event of a change of control of the Company. Pursuant to the terms of the agreements, if the Company terminates an executive officer's employment without cause within the twelve months following a change in control of the Company or the executive terminates his or her employment for good reason (as these terminating events are defined in the agreement) within thirty days after the occurrence of specific events enumerated in the agreement and after giving at least two weeks notice of the termination to the Company, the Company will:

- make a lump sum payment of the executive officer's annual base salary then in effect and a lump sum payment of a bonus based on a calculation tied to the last completed fiscal year's bonus or the bonus related to the year preceding the most recent completed fiscal year in certain circumstances, except that lump sum payments and other benefits under the agreement may be delayed pursuant to requirements, if applicable, of Section 409A of the federal income tax law,
- provide for continuation of medical and dental benefits for a period of twelve months,
- pay the executive officer's life insurance premiums for a period of twelve months,
- cause the immediate vesting, subject to certain terms as discussed below, of stock options, performance shares or units and restricted shares or units, and
- extend the expiration date of the executive officer's vested stock options as of the date of termination to six months after the date of termination.

Under the agreements, and subject to the more detailed definitions set forth therein:

- "change of control" means (i) an acquisition of any of the Company's voting securities which then gives the acquiring person investment or voting power over 50% or more of the then outstanding voting securities of the Company, (ii) the incumbent directors of the Company when the agreement is signed cease to be a majority of the board of directors, provided that new directors approved by two-thirds of the incumbent board who did not obtain election or appointment by an actual or threatened proxy contest are counted as incumbents, or (iii) a merger, consolidation or sale or other disposition of all or substantially all of the assets of the Company (other than a transaction in which the Company's stockholders before the transaction remain holders of more than 50% of the voting power of the surviving entity).
- "cause" means an officer (i) engages in fraud or embezzlement against the Company or its subsidiaries, (ii) misappropriates Company property, proprietary information and/or trade secrets, (iii) demonstrates material unfitness for service or persistent deficiencies in performance, (iv) engages in misconduct, which misconduct is demonstrably and materially injurious to the Company or its subsidiaries; (v) refuses to follow a specific, lawful direction or order of the Company; (vi) breaches any agreement with the Company; or (vii) dies or becomes mentally or physically incapacitated and cannot carry out his or her duties.
- "good reason" means (i) a material reduction of the officer's level of responsibility, the assignment of duties and responsibilities which are materially inconsistent with the officer's position or responsibilities, or the removal of the officer from or failure to re-elect the officer to any of such positions, except in connection with the termination of employment for cause; (ii) a reduction by the Company in the officer's annual salary then in effect, other than a reduction similar in percentage to a reduction generally applicable to similarly situated employees of the Company; or (iii) a material reduction in the kind or level of benefits provided to officer under any benefit plan of the Company in which the officer is participating or deprive the officer of any material fringe benefit enjoyed by the officer, except those changes generally affecting similarly situated employees of the Company.

The agreement also provides that if any payment or benefit would be subject to excise tax as a result of Sections 280G and 4999 of the federal tax code, then the payment or benefit shall be reduced to the extent necessary to avoid such excise tax.

Should a termination, as discussed above occur, the immediate vesting of options and similar share-based compensation is subject to additional terms:

- if the executive officer has been employed by the Company for less than 2 years, then any options (or similar instruments) that would have vested up to the first anniversary of the termination date will be immediately vested,
- if the executive officer was employed at the Company for more than 2 years but less than four, options that would have vested up to the second anniversary of the termination date will be immediately vested, or
- if the executive officer has been with the Company for more than four years, then all outstanding options will be immediately vested

The table below illustrates hypothetical payments under the change of control agreements as if a change in control had occurred on June 27, 2009.

**Termination without cause or resignation for good reason within 12 months  
following change in control:**

Under the agreements pertaining to such options, twenty percent of the options vest on October 1, 2004 and 1/48 of the remaining shares vest monthly for the following four years so that the options are fully vested in five years. For purposes of the 423 Component, the employment relationship shall be treated as continuing intact while the individual is on military or sick leave or other bona fide leave of absence approved by the Company or the Designated Parent or Subsidiary so long as the leave does not exceed three (3) months or if longer than three (3) months, the individual's right to reemployment is provided by statute or has been agreed to by contract. The employment relationship shall be treated as continuing intact where an Eligible Employee transfers employment between the Company, Designated Parents or Subsidiaries and/or Designated Affiliates; provided, however, that an individual who is not employed by the Company or a Designated Parent or Subsidiary on the Offering Date and through a date that is no more than three (3) months prior to the Exercise Date will participate only in the Non-423 Component unless the individual continues to have a right to reemployment with the Company or a Designated Parent or Subsidiary provided by statute or contract. In the event the Committee shall not have set the Purchase Price for a particular Offering Period, such Purchase Price shall be a price equal to the lower of (i) eighty-five percent (85%) of the lower of the Fair Market Value of a Share on the Offering Date or (ii) eighty-five percent (85%) of the Fair Market Value of a Share on the Exercise Date, in each case, for the relevant Offering Period. Such Purchase Price may be established by the Committee by any manner or method the Committee determines, pursuant to Section 16 hereof, and subject to (i) with respect to the 423 Component, compliance with Section 423 of the Code (or any successor rule or provision or any other applicable law, regulation or stock exchange rule) or (ii) with respect to the Non-423 Component, pursuant to such manner or method as determined by the Committee to comply with applicable local law.

3. Eligibility. Any Eligible Employee on a given Offering Date shall be eligible to participate in the Plan. Any provisions of the Plan to the contrary notwithstanding, no Eligible Employee shall be granted an option under the Plan (i) to the extent that, immediately after the grant, such Eligible Employee (or any other person whose shares would be attributed to such Eligible Employee pursuant to Section 424(d) of the Code) would own capital shares of the Company and/or hold outstanding options to purchase capital shares possessing five percent (5%) or more of the total combined voting power or value of all classes of the capital shares of the Company or of any Parent or Subsidiary, or (ii) to the extent that his or her rights to purchase capital shares under all employee stock purchase plans of the Company and its Parents or Subsidiaries accrues at a rate that exceeds Twenty-Five Thousand Dollars (US\$25,000) worth of such shares (determined at the fair market value of the shares at the time such option is granted) for each calendar year in which such option is outstanding at any time.

4. Offering Periods. The Plan shall be implemented by consecutive Offering Periods with a new Offering Period commencing on the Offering Date, which shall be the first Trading Day after the prior Offering Period’s Exercise Date, or on such other date as the Committee shall determine. Within the limitations set forth in Section 2(s), the Committee shall have the power to change the duration of Offering Periods (including the commencement dates thereof) with respect to future offerings without shareholder approval if such change is announced prior to the scheduled beginning of the first Offering Period to be affected thereafter.

5. Participation. An Eligible Employee may become a Participant in the Plan by completing, within any prescribed enrollment period prior to the applicable Offering Date, a Subscription Agreement and/or any other forms and following any procedures for enrollment in the Plan as may be established by the Committee from time to time.

6. Payroll Deductions or Contributions.

(a) At the time a Participant completes any Subscription Agreement, enrollment form and/or procedure to enroll in the Plan, as provided in Section 5, he or she shall elect to have payroll deductions made on each pay day during the Offering Period in an amount not exceeding 10% of the Compensation that he or she receives on each pay day during the Offering Period, provided, however, that no Participant may contribute in excess of Ten Thousand Dollars (US\$10,000) toward the purchase of Shares for any Offering Period. Eligible Employees participating in the Non-423 Component may contribute funds to participate in the Plan through other means specified by the Committee to comply with non-U.S. requirements; provided, however, that such contributions shall not exceed 10% of the Compensation received each pay day up to the Ten Thousand Dollar (US\$10,000) limitation described above, during the Offering Period. A Participant's enrollment in the Plan shall remain in effect for successive Offering Periods unless terminated as provided in Section 10 hereof.

(b) Payroll deductions or contributions, as applicable, for a Participant shall commence on the first pay day following the Offering Date and shall end on the last pay day in the Offering Period to which such authorization is applicable, unless sooner, when terminated by the Participant as provided in Section 10 hereof.

(c) Any payroll deductions or contributions made by a Participant shall be in whole percentages only.

(d) A Participant may discontinue his or her participation in the Plan, as provided in Section 10 hereof, or may increase or decrease the rate of his or her payroll deductions or contributions during the Offering Period by completing or filing with the Company a new Subscription Agreement authorizing a change in payroll deduction rate or contribution. The Committee may, in its discretion, limit the nature and/or number of participation rate changes during any Offering Period. The change in rate shall be effective with the first full payroll period following five (5) business days after the Company's receipt of the new Subscription Agreement unless the Company elects to process a given change in participation more quickly.

(e) Notwithstanding the foregoing, to the extent necessary to comply with Section 423(b)(8) of the Code and Section 3(c) hereof, a participant's payroll deductions or contributions may be decreased to zero percent (0%) at any time during an Offering Period. Payroll deductions or contributions shall recommence at the rate provided in such participant's Subscription Agreement at the beginning of the first Offering Period which is scheduled to end in the following calendar year, unless terminated by the participant as provided in Section 10 hereof.

(f) At the time the option is exercised, in whole or in part, or at the time some or all of the Shares issued under the Plan are disposed of, the Participant must make adequate provision for the federal, state, or any other tax liability of the Company, or its Parent, Subsidiary or Affiliate payable to any authority, national insurance, social security, payment-on-account or other tax obligations, if any, which arise as a result of participation in the Plan, including, for the avoidance of doubt, any liability of the Participant to pay an employer tax or social insurance contribution obligation, which liability has been shifted to the Participant as a matter of law or contract. At any time, the Company or its Parent, Subsidiary or Affiliate, as applicable, may, but shall not be obligated to, withhold from the Participant's compensation the amount necessary for the Company or its Parent, Subsidiary or Affiliate, as applicable, to meet applicable withholding obligations, including any withholding required to make available to the Company or its Parent, Subsidiary or Affiliate, as applicable, any tax deductions or benefits attributable to sale or early disposition of Shares by the Eligible Employee. Where necessary to avoid negative accounting treatment, the Company or its Parent, Subsidiary or Affiliate shall withhold taxes at the applicable statutory minimum withholding rates.

7. Grant of Option. On the Offering Date of each Offering Period, each Eligible Employee participating in such Offering Period shall be granted an option to purchase on each Exercise Date during such Offering Period (at the applicable Purchase Price) up to a number of Shares determined by dividing such Eligible Employee's payroll deductions or contributions accumulated prior to such Exercise Date by the applicable Purchase Price; provided, however, that in no event shall an Eligible Employee be permitted to purchase during each Offering Period more than 1,000 Shares, subject to adjustment pursuant to Section 15 hereof, and provided further that such purchase shall be subject to the limitations set forth in Sections 3 and 14 hereof. The Committee may, for future Offering Periods, increase or decrease, in its absolute discretion, the maximum number of Shares that an Eligible Employee may

purchase during each Offering Period. Exercise of the option shall occur as provided in Section 8 hereof, unless the Participant has withdrawn pursuant to Section 10 hereof. The option shall expire on the last day of the Offering Period.

8. Exercise of Option.

(a) Unless a Participant withdraws from the Plan as provided in Section 10 hereof, his or her option for the purchase of Shares shall be exercised automatically on the Exercise Date, and the maximum number of full Shares subject to the option shall be purchased for such Participant at the applicable Purchase Price with the accumulated payroll deductions or contributions in his or her account. No fractional Shares shall be purchased; any payroll deductions or contributions accumulated in a Participant's account which are not sufficient to purchase a full Share shall, at the discretion of the Committee, be returned to the Participant or be retained in the Participant's account for the subsequent Offering Period, subject to earlier withdrawal by the Participant as provided in Section 10 hereof. During a Participant's lifetime, a Participant's option to purchase Shares hereunder is exercisable only by the Participant.

(b) No Participant is permitted to purchase shares under all employee stock purchase plans of the Company and its Parents or Subsidiaries at a rate that exceeds US\$25,000 in fair market value of stock (determined at time the option is granted) for each calendar year in which any stock option is outstanding at any time.

(c) If the Committee determines that, on a given Exercise Date, the number of Shares with respect to which options are to be exercised may exceed (i) the number of Shares that were available for sale under the Plan on the Offering Date of the applicable Offering Period, or (ii) the number of Shares available for sale under the Plan on such Exercise Date, the Committee may provide, in its sole discretion, that the Company shall make a pro-rata allocation of the Shares available for purchase on such Exercise Date in as uniform a manner as shall be practicable and as it shall determine in its sole discretion to be equitable among all Participants exercising options to purchase Shares on such Exercise Date. The Company may make a pro-rata allocation of the Shares available on the Offering Date of any applicable Offering Period pursuant to the preceding sentence, notwithstanding any authorization of additional Shares for issuance under the Plan by the Company's shareholders subsequent to such Offering Date.

9. Delivery. As soon as reasonably practicable after each Exercise Date on which a purchase of Shares occurs, the Company shall arrange for the delivery to each Participant of the Shares purchased upon exercise of his or her option in a form determined by the Committee.

10. Withdrawal.

(a) A Participant may decide not to exercise an option and opt to withdraw all, but not less than all, the payroll deductions or contributions credited to his or her account and not yet used to exercise his or her option under the Plan at any time by giving notice in a form or manner prescribed by the Committee from time to time, except that no withdrawals shall be permitted for the period immediately preceding each Exercise Date as may be specified by the Committee in its discretion. All of the Participant's payroll deductions or contributions credited to his or her account shall, at the discretion of the Committee, (i) be retained in Participant's account and used to purchase Shares at the next Exercise Date or (ii) be paid to such Participant as soon as reasonably practicable after receipt of notice of withdrawal and such Participant's option for the Offering Period shall be terminated automatically, and no further payroll deductions or contributions for the purchase of Shares shall be made for such Offering Period. If a Participant withdraws from an Offering Period, payroll deductions or contributions shall not resume at the beginning of the succeeding Offering Period unless the Participant completes the process to re-enroll in the Plan as prescribed by the Committee from time to time.

(b) A Participant's withdrawal from an Offering Period shall not have any effect upon his or her eligibility to participate in any similar plan that may hereafter be adopted by the Company or in succeeding Offering Periods which commence after the termination of the Offering Period from which the Participant withdraws.

11. No Right to Employment. Participation in the Plan by a Participant shall not be construed as giving a Participant the right to be retained as an employee of the Company, a Parent, Subsidiary, or an Affiliate, as applicable. Furthermore, the Company, a Parent, Subsidiary, or an Affiliate may dismiss a Participant from employment at any time, free from any liability or any claim under the Plan.

12. Termination of Employment. Upon a Participant's ceasing to be an Eligible Employee, for any reason, he or she shall be deemed to have elected to withdraw from the Plan and the payroll deductions or contributions credited to such Participant's account during the Offering Period but not yet used to purchase Shares under the Plan shall be returned to such Participant or, in the case of his or her death, to the person or persons entitled thereto under Section 17 hereof, and such Participant's option shall be terminated automatically.

13. Interest. No interest shall accrue on the payroll deductions or contributions of a Participant in the Plan. Notwithstanding the foregoing, if the Committee determines that, pursuant to applicable local law, interest is required to be accrued on the payroll deductions or contributions for Participants in the Non-423 Component, then the Committee shall cause such interest to accrue to the extent required by applicable local law.

14. Shares Available for Purchase under the Plan.

(a) Basic Limitation. The aggregate number of Shares authorized for sale under the Plan is 2,000,000 Shares. The number of Shares that are subject to options under the Plan shall not exceed the number of Shares that then remain available for sale under the Plan. For avoidance of doubt, the limitation set forth in this section may be used to satisfy exercises of options under either the 423 Component or the Non-423 Component. The limitations of this Section shall be subject to adjustment pursuant to Section 15 hereof.

(b) Rights as an Unsecured Creditor. Until the Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly-authorized transfer agent of the Company), a Participant shall only have the rights of an unsecured creditor with respect to such Shares, and no right to vote or receive dividends or any other rights as a shareholder shall exist with respect to such Shares.

(c) Sources of Shares Deliverable at Purchase. Any Shares issued after purchase may consist, in whole or in part, of authorized and unissued Shares or of treasury Shares.

(d) Registration of Shares. Shares to be delivered to a Participant under the Plan shall be registered in the name of the Participant.

15. Adjustments for Changes in Capitalization and Similar Events.

(a) Changes in Capitalization. Subject to any required action by the shareholders of the Company, the maximum number of Shares that shall be made available for sale under the Plan, the maximum number of Shares that each Participant may purchase during each Offering Period (pursuant to Section 7), as well as the price-per-Share and the number of Shares covered by each option under the Plan that has not yet been exercised shall be proportionately adjusted for any increase or decrease in the number of issued Shares resulting from any extraordinary dividend or other extraordinary distribution (whether in the form of cash, Shares, other securities or other property), recapitalization, stock split, reverse stock split, split-up or spin-off, or any other change in the number of Shares effected without receipt of consideration by the Company; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration." Such adjustment shall be made by the Committee, whose determination in that respect shall be final, binding and conclusive. For the avoidance of doubt, the Committee may not delegate its authority to make adjustments pursuant to this paragraph to the Administrator. Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of Shares subject to an option.

(b) Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Offering Period then in progress shall be shortened by setting a new Exercise Date (the "New Exercise Date"), and shall terminate immediately prior to the consummation of such proposed dissolution or liquidation, unless provided otherwise by the Committee. The New Exercise Date shall be before the date of the Company's proposed dissolution or liquidation. The Committee shall notify each Participant in writing, at least ten (10) U.S. business days prior to the New Exercise Date, that the Exercise Date for the Participant's option has been changed to the New Exercise Date and that the Participant's option shall be exercised automatically on the New Exercise Date, unless prior to such date the Participant has withdrawn from the Offering Period as provided in Section 10 hereof.

(c) Change of Control. In the event of a Change of Control, each outstanding option shall be assumed or an equivalent option substituted by the successor corporation or a Parent or Subsidiary of the successor corporation. In the event that the successor corporation refuses to assume or substitute for the option, the Offering Period then in progress shall be shortened by setting a New Exercise Date and shall end on the New Exercise Date. The New Exercise Date shall be before the date of the Company's proposed merger or Change of Control. The Committee shall notify each Participant in writing, at least ten (10) U.S. business days prior to the New Exercise Date, that the Exercise Date for the Participant's option has been changed to the New Exercise Date and that the Participant's option shall be exercised automatically on the New Exercise Date, unless prior to such date the Participant has withdrawn from the Offering Period as provided in Section 10 hereof.

16. Administration.

(a) Authority of the Committee. Subject to the terms of the Plan and applicable law, and in addition to other express powers and authorizations conferred on the Committee by the Plan, the Committee shall have sole and plenary authority to administer the Plan, including, without limitation, the authority to (i) construe, interpret, reconcile any inconsistency in, correct any default in and supply any omission in, and apply the terms of the Plan and any Subscription Agreement or other instrument or agreement relating to the Plan, (ii) determine eligibility and adjudicate all disputed claims filed under the Plan, including whether Eligible Employees shall participate in the 423 Component or the Non-423 Component and which entities shall be Designated Parents, Subsidiaries or Designated Affiliates, (iii) determine the terms and conditions of any option to purchase Shares under the Plan, (iv) establish, amend, suspend or waive such rules and regulations and appoint such agents as it shall deem appropriate for the proper administration of the Plan, (v) amend an outstanding option or grant a replacement option for an option previously granted under the Plan if, in the Committee's discretion, it determines that (A) the tax consequences of such option to the Company or the Participant differ from those consequences that were expected to occur on the date the option was granted, or (B) clarifications or interpretations of, or changes to, tax law or regulations permit options to be granted that have more favorable tax consequences other than initially anticipated, and (vi) make any other determination and take any other action that the Committee deems necessary or desirable for the administration of the Plan. Notwithstanding any provision to the contrary in this Plan, the Committee may adopt rules or procedures relating to the operation and administration of the Plan to accommodate the specific requirements of local laws and procedures for jurisdictions outside of the United States. Without limiting the generality of the foregoing, the Committee specifically is authorized to adopt rules, procedures and subplans, which, for purposes of the Non-423 Component, may be outside the scope of Section 423 of the Code, regarding, without limitation, eligibility to participate, the definition of Compensation, handling of payroll deductions, making of contributions to the Plan (including, without limitation, in forms other than payroll deductions), establishment of bank or trust accounts to hold payroll deductions, payment of interest, conversion of local currency, obligations to pay payroll tax, determination of beneficiary-designation requirements, withholding procedures and handling of Share issuances, which may vary according to local requirements. The Committee may assign any of its administrative tasks set forth in this paragraph to the Administrator, except that the Committee may not delegate the task of designating a Designated Affiliate or Designated Parent or Subsidiary. Furthermore, the Committee may not delegate its authority to make adjustments pursuant to Section 15(a) hereof.

(b) Committee Decisions. Unless otherwise expressly provided in the Plan, all designations, determinations, interpretations and other decisions under or with respect to the Plan or any option to purchase Shares granted under the Plan shall be within the sole and plenary discretion of the Committee, may be made at any time and shall be final, conclusive, and binding upon all persons, including the Company, any Designated Parent, Subsidiary or Designated Affiliate, any Participant, any Eligible Employee, or any beneficiary of such person, as applicable.

(c) Indemnification. No member of the Board, the Committee, the Administrator or any associate of the Company, a Designated Parent, Subsidiary, or a Designated Affiliate (each such person, a "Covered Person") shall be liable for any action taken or omitted to be taken or any determination made in good faith with respect to the Plan or any option hereunder. Each Covered Person shall be indemnified and held harmless by the Company against and from (i) any loss, cost, liability or expense (including attorneys' fees) that may be imposed upon or incurred by such Covered Person in connection with or resulting from any action, suit, or proceeding to which such Covered Person may be a party or in which such Covered Person may be involved by reason of any action taken or omitted to be taken under the Plan or any enrollment form or procedure, and (ii) any and all amounts paid by such Covered Person, with the Company's approval, in settlement thereof, or paid by such Covered Person in satisfaction of any judgment in any such action, suit, or proceeding against such Covered Person; provided, however, that the Company shall have the right, at its own expense, to assume and defend any such action, suit, or proceeding, and, once the Company gives notice of its intent to assume the defense, the Company shall have sole control over such defense with counsel of the Company's choice. The foregoing right of indemnification shall not be available to a Covered Person to the extent that a court of competent jurisdiction in a final judgment or other final adjudication, in either case not subject to further appeal, determines that the acts or omissions of such Covered Person giving rise to the indemnification claim resulted from such Covered Person's bad faith, fraud, or willful criminal act or omission, or that such right of indemnification is otherwise prohibited by applicable law or by the Company's certificate of incorporation or bylaws. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which Covered Persons may be entitled under the Company's certificate of incorporation or bylaws, as a matter of law, or otherwise, or any other power that the Company may have to indemnify such persons or hold them harmless.

17. Death. Unless otherwise provided in an enrollment form or procedures established by the Committee from the time to time, in the event of the Participant's death, any accumulated payroll deductions and other contributions not used to purchase Shares shall

be paid to and any Shares credited to his or her Plan account shall be transferred (according to Broker requirements) to Participant's heirs or estate as soon as reasonably practicable following the individual's death.

18. Transferability. Neither payroll deductions nor contributions credited to a Participant's account nor any rights with regard to the exercise of an option or to receive Shares under the Plan may be assigned, alienated, pledged, attached, sold or otherwise disposed of in any way (other than by will, the laws of descent and distribution or as provided in Section 17 hereof) by the Participant. Any such attempt at assignment, transfer, pledge or other disposition shall be without effect, except that the Company may treat such act as an election to withdraw funds from an Offering Period in accordance with Section 10 hereof.

19. Use of Funds. All payroll deductions or contributions received or held by the Company under the Plan may be used by the Company for any corporate purpose, and the Company shall not be obligated to segregate such payroll deductions or contributions except for deductions or contributions made to a Non-423 Component where, as determined by the Committee, applicable local law requires segregation of such amounts. Until Shares are issued, Participants shall only have the rights of an unsecured creditor, although Participants in the Non-423 Component may have additional rights where required under local law, as determined by the Committee.

20. Amendment and Termination.

(a) Subject to any applicable law or government regulation and to the rules of NASDAQ or any successor exchange or quotation system on which the Shares may be listed or unquoted, the Plan may be amended, modified, suspended or terminated by the Board without the approval of the shareholders of the Company. For the avoidance of doubt, such tasks may not be delegated to the Administrator. Except as provided in Section 15 hereof, no amendment may make any change in any option theretofore granted which adversely affects the rights of any Participant or any beneficiary (as applicable) without the consent of the affected Participant or beneficiary. To the extent necessary to comply with Section 423 of the Code (or any successor rule or provision or any other applicable law, regulation or stock exchange rule), the Company shall obtain shareholder approval of any amendment in such a manner and to such a degree as required.

(b) Without shareholder approval and without regard to whether any Participant rights may be considered to have been "adversely affected," the Committee shall be entitled, inter alia, to change the Offering Periods, limit the frequency and/or number of changes in the amount withheld during an Offering Period, establish the exchange ratio applicable to amounts withheld in a currency other than U.S. dollars, permit payroll withholding in excess of the amount designated by a Participant to adjust for delays or mistakes in the Company's processing of properly completed enrollment forms, establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of Shares for each Participant properly correspond with amounts withheld from the Participant's Compensation, and establish such other limitations or procedures as the Committee determines in its sole discretion advisable which are consistent with the Plan.

21. Notices. All notices or other communications by a Participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form and manner specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

22. Conditions Upon Issuance of Shares.

(a) Shares shall not be issued with respect to an option unless the exercise of such option and the issuance and delivery of such Shares pursuant thereto shall comply with all applicable provisions of law, U.S. and non-U.S. and state and local provisions, including, without limitation, the Securities Act of 1933, as amended, the Exchange Act, the rules and regulations promulgated thereunder, and the requirements of any stock exchange upon which the Shares may then be listed, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

(b) As a condition to the exercise of an option, the Company may require the person exercising such option to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required by any of the applicable provisions of law described in Section 22(a) hereof.

23. Share Issuance. All Shares delivered under the Plan pursuant to the exercise of an option to purchase Shares shall be subject to such stop-transfer orders and other restrictions as the Committee may deem advisable under the Plan or the rules, regulations, and other requirements of the U.S. Securities and Exchange Commission, NASDAQ, or any other stock exchange or quotation system

upon which such Shares or other securities are then listed or reported and any applicable Federal or state laws, and the Committee may take whatever steps are necessary to effect such restrictions.

24. Term of Plan. The Plan shall become effective immediately prior to the first Trading Day following the last Exercise Date (as defined in the Prior Plan) of the Prior Plan occurring prior to the expiration of the Prior Plan, subject to approval by the shareholders of the Company. Unless sooner terminated by the Board in accordance with Section 20 hereof, the Plan shall terminate on the earlier to occur of (a) the date on which all Shares available for issuance under the Plan shall have been sold pursuant to options granted under the Plan or (b) the date on which all options are exercised in connection with a dissolution or liquidation pursuant to Section 15(b) hereof or a Change of Control pursuant to Section 15(c) hereof. No further options shall be granted or exercised, and no further payroll deductions or contributions shall be collected under the Plan following such termination.

25. Shareholder Approval. The Plan will be subject to the approval by shareholders of the Company within twelve (12) months after the date the Plan is adopted by the Board. Such shareholder approval will be obtained in the manner and to the degree required under applicable law.

26. Code Section 409A; Tax Qualification.

(a) Option granted under the 423 Component are exempt from the application of Section 409A. Options granted under the Non-423 Component to U.S. taxpayers are intended to be exempt from the application of Section 409A of the Code under the short-term deferral exception and any ambiguities shall be construed and interpreted in accordance with such intent. Subject to Section 26(b) hereof, options granted to U.S. taxpayers under the Non-423 Component shall be subject to such terms and conditions that will permit such options to satisfy the requirements of the short-term deferral exception available under Section 409A of the Code, including the requirement that the Shares subject to an option be delivered within the short-term deferral period. Subject to Section 26(b) hereof, in the case of a Participant who would otherwise be subject to Section 409A of the Code, to the extent the Plan Administrator determines that a purchase right or the exercise, payment, settlement or deferral thereof is subject to Section 409A of the Code, the purchase right shall be granted, exercised, paid, settled or deferred in a manner that will comply with Section 409A of the Code, including Department of Treasury regulations and other interpretive guidance issued thereunder, including without limitation any such regulations or other guidance that may be issued after the Effective Date. Anything in the foregoing to the contrary notwithstanding, the Company shall have no liability to a Participant or any other party if the purchase right that is intended to be exempt from, or compliant with Section 409A of the Code is not so exempt or compliant or for any action taken by the Committee with respect thereto.

(b) Although the Company may endeavor to (i) qualify a purchase right for favorable tax treatment under the laws of the United States or jurisdictions outside of the United States or (ii) avoid adverse tax treatment (e.g., under Section 409A of the Code), the Company makes no representation to that effect and expressly disavows any covenant to maintain favorable or avoid unfavorable tax treatment, anything to the contrary in this Plan, including Section 25(a) hereof, notwithstanding. The Company shall be unconstrained in its corporate activities without regard to the potential negative tax impact on Participants under the Plan.
